Relevant CourseWork: CSC 330 Advanced Data Structure, CSC 362 System Programming

Skills

HTML, CSS , React, JavaScript, Microsoft Excel, Vicinity, Solomon, Data Entry

Work Experience

Mother Murphy's Laboratories Inc. 2024

- Data Management: Responsible for accurate data entry and updates within Vicinity, Microsoft Excel, and Solomon systems, focusing on formula adjustments to ensure that product information is consistently reflected in all related documentation.
- Regulatory Research: Conduct in-depth research on international and domestic regulations, ensuring our products meet global compliance standards.

CST Industrial Cleaning Service, 2023

- Perform cleaning duties within the Fedex warehouse facility, ensuring cleanliness and orderliness inside and outside of the warehouse.

O'Reilly Auto Parts Package Distribution, 2020

- Organized and received 150 to 200 customers orders at the beginning of the business day.
- Coordinated with supervisor to transport packages to loading area for easy pick up by transportation team

Lowe's Service Associate, 2022

- Within the lumberjack department, I assisted customers in selecting ideal wood products for their homes. Utilizing machinery, I tailored these selections to match their preferences, ensuring customer satisfaction and operational efficiency.
