Education

Software Developer BootCamp, November 2023

University of North Carolina Chapel Hill

Minor in Biological Science, November 2022

University of North Carolina at Greensboro

Skills

Front-End
HTML, CSS , React, Bootstrap

Back-End
JavaScript, NodeJS, Mongo, JQuery, Apollo GraphQL

Projects

[Front-End Ecommerce Website](#)
This is a React-based front-end ecommerce website, designed to allow users to seamlessly filter through categories of men's and women's clothing.
HTML, CSS, JavaScript, React

[JavaScript Quiz](#)
This JavaScript quiz assesses the user's JavaScript knowledge. As participants engage with the quiz, a countdown timer deducts five seconds for each incorrect response. Upon completion, users have the option to save their scores.
HTML, CSS, JavaScript

NoSQL Social API
This is a back-end social API that enables users to perform CRUD operations on a social database. It allows the addition, deletion, updating, and reading of user information, including thoughts, friends, and reaction. (*A Back-end-only project will not have an experience link.)
HTML, CSS, JavaScript, Node, Mongoose, MongoDB, Express.js

[Weather App](#)
This weather application leverages the OpenWeather API to provide users with current and five-day forecasts for any entered city.
HTML, CSS, JavaScript

[Hello Software](#)
This application is a collaborative MERN-stack project resembling an e-commerce platform. It prompts users to log in, choose a tutor, and facilitates payment through Stripe.
HTML, CSS, JavaScript, React, Stripe, Apollo GraphQL, Mongoose, MongoDB

Other

Computer: Git Version Control, MS Word, Excel, Access, and PowerPoint
Language: French (Level) B2, Spanish (Level) B1
